# CHOOSING THE RIGHT LAWN OR LAWN SUPPLIER IS NOT AS STRAIGHT FORWARD AS YOU MIGHT THINK

There are so many different lawn varieties and turf brands available, but not all of them will suit your needs and local growing conditions.

Nor are all turf suppliers the same, particularly when it comes to quality and after-sales service.

Now the choice is made easy.

## INTRODUCING LAWN SOLUTIONS AUSTRALIA YOUR 'ONE-STOP' LAWN SOLUTION

Lawn Solutions Australia is a hand-picked group of Australia's best and most experienced turf growers who have come together to offer a one-stop solution for all your lawn needs.

When you deal with your local quality accredited Lawn Solutions Australia grower, you will know you are getting the best lawn variety to suit your needs and environment, backed by our unique 10-year Customer Satisfaction Warranty.

Trusted brands from experienced growers.

Our growers are the same ones who brought you Sir Walter soft-leaf buffalo, Australia's favourite lawn, so you know you are in good hands.

They are committed to applying that same commitment to quality and performance into a new range of turf brands.

THE LAWN SOLUTIONS AUSTRALIA 'HOUSE OF BRANDS' IS MADE UP OF:

So from Broome to Sydney, Cairns to Melbourne....no matter where you live, when you specify one of the LSA brands you will know you are getting the locally grown variety that best suits your conditions.

## THERE'S MORE TO US THAN JUST GRASS

Your local Lawn Solutions Australia grower also offers a broad range of products and services to ensure your lawn remains as healthy and beautiful as the day it was installed.

These include:

- Turfgro premium turf underlay;
- Fertilisers and weed control products, which are also available from Lawn Solutions Centres located nationally.

## AUSTRALIA'S FIRST 10-YEAR LAWN WARRANTY

Our commitment to quality and service is backed by our industry-first, 10-year Customer Satisfaction Warranty.

The warranty certifies that a lawn supplied by a Lawn Solutions Australia member has been grown and harvested to stringent standards, is free of weeds and disease on delivery, and will perform to its maximum potential in its new environment (subject to conditions).
